Countdown Entertainment's Artist-Focused Consultancy Division Opens Doors with Contacts and Opportunities

New York, NY, January 6, 2005 – Hire A Consultant, Countdown Entertainment's artist-focused consultancy division, recently secured a film soundtrack deal for one of the company's clients, Bill Giakas of Jag Wired Music, LLC, based in Rockford, Illinois. Two of Giakas' songs, "Boys at Play" and "Foreign Girl," will be placed in the film *Desert Cemetery*, by Flash Dog Entertainment.

Bill Giakas is a talented long-time singer/songwriter/ producer/musician composing in the Pop, Dance and Country genres. Now, because of the expertise provided by Hire A Consultant, Giakas has found a new avenue for his music – TV and film soundtracks. "Many artists forget to explore all the opportunities that exist for music today," says James Citkovic, president of Countdown Entertainment. Giakas's song placements in *Desert Cemetery* is just one more example of the types of successes Hire A Consultant clients can expect.

Desert Cemetery, a hard hitting film in the tradition of Hitchcock's *Stranger's On A Train*, is an action adventure thriller with twists, turns and more than a few surprises.

Hire A Consultant provides fee-based services to artists, bands, songwriters, producers and even Indie labels looking for new opportunities and contacts worldwide to help them take the next step in their careers.
