**RAMONES DVD DEAL SECURED
BY CREATIVE CONTENT MANAGEMENT**

New York, NY, January 4, 2005—Creative Content Management (CCM), an artist management and intellectual properties firm, announced that it has brokered a deal with Image Entertainment for a DVD celebrating the legendary punk band, The Ramones. CCM partners James Citkovic, Albert Brodie and David Brodie and a California-based associate) to secure the deal. James Citkovic initiated the deal through Chuck Bernal of Artists Worldwide, a management and booking agency representing Ramones drummer, Marky Ramone who provided the exclusive footage.

Due out this spring, the DVD will feature live performances, interviews and the backstage antics of the 1979 originators of punk. For two decades, The Ramones ruled the rock and hardcore scene, becoming one of the best-known mascots for New York City's legendary club, CBGB's. Although the passing of two of the original members, Joey and Dee Dee Ramone, have dashed hopes for a reunion tour, the DVD aims to be the next best thing.

Sure to delight The Ramones' devotees of all ages, this DVD will provide an exclusive look back on the band that broke all the barriers of rock and remain, to this day, one of music history's greatest rebels.
